Contents of volume 90

Number 1

Regular articles

Publisher's Note, 1

FRANNY HSIAO and EDWARD GIBSON (*Massachusetts Institute of Technology*)
Processing relative clauses in Chinese, 3–27

FRANKLIN CHANG (*Max Planck Institute for Evolutionary Anthropology*), KATHRYN BOCK and ADELE E. GOLDBERG (*University of Illinois at Urbana-Champaign*)
Can thematic roles leave traces of their places?, 29–49

ANNE PIER SALVERDA, DELPHINE DAHAN and JAMES M. MCQUEEN (*Max Planck Institute for Psycholinguistics*)
The role of prosodic boundaries in the resolution of lexical embedding in speech comprehension, 51–89

TOBEN H. MINTZ (*University of Southern California*)
Frequent frames as a cue for grammatical categories in child directed speech, 91–117

Brief article

DANIEL M. OPPENHEIMER (*Stanford University*)
Not so fast! (and not so frugal!): rethinking the recognition heuristic, B1–B9

Number 2

Regular articles

ADAM ALBRIGHT and BRUCE HAYES (*University of California*)
Rules vs. analogy in English past tenses: a computational/experimental study, 119–161

LAURA WAGNER and SUSAN CAREY (*Harvard University*)
Individuation of objects and events: a developmental study, 163–191

STEPHEN E. NEWSTEAD (*University of Plymouth*)
Can natural language semantics explain syllogistic reasoning?, 193–199

BART GEURTS (*University of Nijmegen*)
Monotonicity and syllogistic inference: a reply to Newstead, 201–204

GERARD KEMPEN (*Leiden University, Max Planck Institute for Psycholinguistics*) and KARIN HARBUSCH (*University of Koblenz-Landau*)
An artificial opposition between grammaticality and frequency: comment on Bornkessel, Schlesewsky, and Friederici (2002), 205–210

INA BORNKESSEL (*Max Planck Institute of Cognitive Neuroscience*), MATTHIAS SCHLESEWSKY (*Philipps University Marburg*) and ANGELA D. FRIEDERICI (*Max Planck Institute of Cognitive Neuroscience*)
"And yet it moves" or why grammar overrides frequency: a reply to Kempen and Harbusch, 211–213

GERARD KEMPEN (*Leiden University, Max Planck Institute for Psycholinguistics*) and KARIN HARBUSCH (*University of Koblenz-Landau*)
Rectification, 215

Brief articles

SUSANNE MAYR, MICHAEL NIEDEGGEN, AXEL BUCHNER and REINHARD PIETROWSKY (*Heinrich-Heine-Universität*)
ERP correlates of auditory negative priming, B11–B21

SHAUN NICHOLS and TRISHA FOLDS-BENNETT (*College of Charleston*)
Are children moral objectivists? Children's judgments about moral and response-dependent properties, B23–B32

Number 3

Regular articles

JOHN D. COLEY (*Northeastern University*), BRETT HAYES (*University of New South Wales*), CHRISTOPHER LAWSON (*University of Wisconsin*) and MICHELLE MOLONEY (*University of New South Wales*)
Knowledge, expectations, and inductive reasoning within conceptual hierarchies, 217–253

ROGER P.G. VAN GOMPEL (*University of Dundee*) and ASIFA MAJID (*Max Planck Institute for Psycholinguistics*)
Antecedent frequency effects during the processing of pronouns, 255–264

TERESA WILCOX (*Texas A&M University*) and CATHERINE CHAPA (*Palo Alto College*)
Priming infants to attend to color and pattern information in an individuation task, 265–302

CLAIRE M. FLETCHER-FLINN (*The University of Auckland*) and G. BRIAN THOMPSON (*Victoria University of Wellington*)
A mechanism of implicit lexicalized phonological recoding used concurrently with underdeveloped explicit letter-sound skills in both precocious and normal reading development, 303–335
